

Features:

- Constant voltage design
- Universal AC input / Full range
- Protections: Short circuit / Over load / Over voltage
- Fully isolated plastic case
- Cooling by free air convection
- Small and compact size
- Class 2 power unit
- Pass LPS
- IP42 design
- · Suitable for LED lighting and moving sign applications
- 100% full load burn-in test
- · Low cost, high reliability
- · 2 years warranty

- 2. Ripple & noise are measured at 20MHz of bandwidth by using a 12" twisted pair-wire terminated with a 0.1uf & 47uf parallel capacitor.
- 3. Tolerance : includes set up tolerance, line regulation and load regulation.
- 4. Derating may be needed under low input voltage. Please check the static characteristics for more details.
- The power supply is considered as a component that will be operated in combination with final equipment. Since EMC performance will be affected by the complete installation, the final equipment manufacturers must re-qualify EMC Directive on the complete installation again.
 Length of set up time is measured at first cold start. Turning ON/OFF the power supply may lead to increase of the set up time.
 The unit might not be suitable for lighting applications in EU countries. Please check with your local authorities for the possible use of the unit.
 The model certified for CCC(GB19510.14, GB19510.1, GB17743 and GB17625.1) is an optional model . Please contact MEAN WELL for details.
